LEAD4CHANGE®

Lead4Change is a free student leadership program that helps students realize that they can make a difference in their community. The program combines 7 modules of leadership curriculum with a service project and helps unlock the unique gifts of each student to create real, lasting change!

The Lead4Change Program offers

- A complete leadership curriculum that teaches leadership through community service
- A dashboard to present and facilitate the lessons making the program seamless to administer
- Dedicated Instructional Coach to help and support you along the way

Program Overview

With our simple-to-use lessons, you'll help your students develop leadership skills that will prepare them for their next chapter – whatever that may be.

WHO
An educator or adult advisor who leads students, grades 6th-12th, in teams of three or more

WHAT
A 7-module curriculum that teaches leadership skills through a service learning approach that includes an easy-to-follow script, digital student workbook, teaching videos, and interactive lessons.

WHEN
Teach the lessons at any time and submit your project between Oct. 1-Jun. 1 of the school year.

WHERE
In class, leadership association or clubs, home, or youth club

The Lead4Change Project

Our service learning framework has students put the leadership lessons they're learning into practice as they plan and execute a service project. Students identify a need in their school or community, then put a plan in place to provide a solution for that need. It's amazing to see how your students will make a real impact in the lives of those around them!

The Lead4Change Small Grants Project

Student teams can choose to participate in the Lead4Change Small Grants Program where their hard work is rewarded with a grant to continue the project's impact. The optional Modules (8 & 9) walk students through how to pitch their project idea to our panel of judges. If selected, your student team could earn up to $10,000 towards their project! *Rules apply

♦ Reward

- ★ Increase belief in oneself and self-awareness
- ★ Boost confidence and leadership abilities
- ★ Enhance soft skills like collaboration and problem solving
- ★ Develop hard skills like goal setting and decision making

Plus, students will get certificates of completion, graduation honor cords and graduation credit hours in states that qualify!
