

LEAD4CHANGE®

Help your students grow as leaders and earn credit toward graduation with Lead4Change

What is Lead4Change?

The Lead4Change Core Curriculum is a free, project-based leadership program for middle and high school students. It's designed to help students:

- Build real-world leadership and life skills
- Create meaningful change in their communities
- *And* earn credit toward graduation

Over the course of 7 flexible modules, students will:

- ✓ Grow in confidence, self-awareness, and communication
- ✓ Set goals, lead with purpose, and work as a team
- ✓ Solve real problems through a student-led service project

The curriculum supports key educational priorities like:

- Social & Emotional Learning (SEL)
- Career & Technical Education (CTE)
- Project-Based Learning (PBL)

Plus, like all Lead4Change resources, it's research-backed, teacher-approved, and 100% free.

How can it help my students earn credit?

Lead4Change is an approved Texas Education Agency (TEA) resource to fulfill the Student Leadership Innovative Course.

- **Credential Name:** Lead4Change Student Leadership Program
- **PEMIS Code:** N1290010, STULEAD
- **Credential Value:** 1 point toward high school graduation

Everything you need to help your students succeed.

When you register (for free!), you'll unlock:

- A full library of lessons, handouts, and rubrics
- Short, engaging leadership videos
- A team dashboard to track progress and upload work
- Step-by-step educator guidance and support
- Access to a dedicated instructional coach

Here's how it works:

1. Sign up at Lead4Change.org for instant access.

No student logins or accounts to manage.

2. Facilitate the Curriculum (Modules 1-7)

Use the plug-and-play modules in your Lead4Change dashboard. Everything's included—no extra prep required.

3. Lead a Student-Driven Service Project

As students move through the curriculum, they'll work in teams to plan and complete a service project that addresses a real need in their school or community. The full timeline depends on the project—some take a few weeks, others unfold over a few months.

4. Submit Your Project (Plus Pathway)

To receive credit, complete the **Plus Project Submission** in your Lead4Change dashboard, which includes:

Project summary + highlights

Student work samples (no test at the end!)

Completed team reflection

For full eligibility and submission requirements ►

5. (Optional) Apply for a Small Grant

Eligible teams can apply for up to \$10,000 in grant funding for their school, club, or nonprofit partner by completing Modules 8 and 9 and submitting the required application materials.

6. Submit Certificates to Your District

Once approved, Lead4Change will issue **digital certificates** for each student. Check with your administration on how to submit documentation to earn graduation credit. You can also request free honor cords from Lead4Change for your students to wear for graduation.

Have questions?

We're here to help!

Frequently Asked Questions

I'm already using Lead4Change—how do I make sure my students get credit?

To receive graduation credit, you must submit your students' work as a Plus Project through the Lead4Change dashboard. This submission includes student work samples, reflections, and photo documentation of the service project. Once approved, you'll receive digital certificates to submit to your district.

Do I have to teach every lesson for my students to get credit?

Yes—students must complete all 7 Core Curriculum modules and lead a student-driven service project in order to qualify for the credential. The modules are designed to build skills progressively and meet state expectations for credit-bearing work.

What is the difference between a Standard and Plus Project submission?

> Standard Project: Great for general participation, classroom recognition, and community impact

> Plus Project: Required for students to earn credit or be eligible for grants and competitions. It includes more robust documentation and is reviewed by the Lead4Change team. You will select a variety of student work samples to represent each team's submission. Student work must be legible and show thoughtfulness and effort to meet the criteria for approval. If there are issues with the submission, in most cases, you will have the opportunity to try and resolve them.

If you want your students to earn graduation credit, be sure to select the Plus Pathway when creating your team.

How many credits can my students earn through Lead4Change?

Students who complete the Lead4Change curriculum, including a service project, and submit a Plus Project are eligible to earn 1 point toward graduation through the Texas Education Agency

Where can I learn more about how this credential fits into Texas's graduation requirements?

You can visit the [Texas Education Agency's website](#) to view the credential (PEMIS Code: N1290010, STULEAD) as it relates to the fulfillment of the Student Leadership Innovative Course.
